

ProSites Endorsed by Oklahoma Dental Association

Website Design and Internet Marketing Leader Selected as Provider of Choice for Oklahoma Dentists

Temecula, CA, February 22, 2008 -- As of today, ProSites, Inc., the nation's leading provider of website design and Internet marketing services for medical and dental professionals, has entered into an agreement with the Oklahoma Dental Association (ODA). This agreement endorses ProSites as the provider of choice for their growing membership of over 1,500 dentists.

"Our members were looking for a website design program that was easy to use, professional-looking, and appealed to today's market of dental consumers," remarked Dr. Krista Jones, dentist and President of the Oklahoma Dental Association. After thoroughly reviewing the merits of several website design and Internet marketing companies, the ODA ultimately selected ProSites. "The ODA knows that a strong Internet presence and online marketing is essential for today's dental practice," says Dr. Jones. "The ODA is excited and proud to endorse ProSites as the provider of choice to our membership."

"We are thrilled to receive the Oklahoma Dental Association's stamp of approval," said ProSites CEO Lance McCollough. "We are eager to show ODA members how they can grow their practices, attract new, high-value patients and stay on the cutting edge of dentistry with a ProSites website."

ProSites offers dentists graphically compelling website designs, patient-oriented content and an array of interactive features that help streamline patient communications. Dentists can quickly and easily become their own webmaster and gain greater control over their finished website using ProSites' exclusive WebEngine technology. Unique options allow dentists to select or revise their site styles and text, create custom pages, add photos, and access their website editor at any time 24/7. The company offers a free no-obligation trial of its services at www.prosites.com.

About ProSites

ProSites, Inc. is the nation's leading provider of high quality website design and Internet marketing services specifically tailored to the needs of medical and dental professionals. The company's exclusive WebEngine technology fully automates the creation of high-end, graphically compelling websites that help doctors to market their practices on the Internet and attract new patients. In addition to an excellent collection of patient-oriented content, the websites also include interactive features that help streamline patient communications and online appointment requests. Headquartered in Temecula, California, ProSites is a privately held corporation. For more information, visit www.prosites.com or call (888) 932-3644.

About The Oklahoma Dental Association

Founded in 1907, the Oklahoma Dental Association has a proud membership of over 1,500 dentist members and is headquartered in Oklahoma City. The Association was established to help foster an awareness of the obligations and responsibilities of the dental profession to society, to help advance the art and science of dentistry, and to promote public health and health services in the State of Oklahoma. For more information, visit www.okda.org or call (800) 876-8890.
